Our school strategies are showing substantial progress toward our targets

After reviewing our *Great Results Guarantee* agreement, it is clear that we have made progress toward our targeted student outcomes. We will continue to focus on maximising the benefits of this funding for our students, and adjust our strategies as needed to ensure every student succeeds.

Strategies implemented include:

- Ensuring that there is a focus on the explicit teaching of Maths. Staff participated in a Maths inservice in First Steps to improve their capacity around the knowledge of the teaching of targeted areas.
- Utilizing existing personnel and employing additional support staff to work with individual and small groups of students. Students were identified from their performance data and placed in groups for both support and extension. This occurred in class as well as before and after school tutoring. Identified students were involved in the Levelled Literacy Program. Data from PM Benchmarks showed an increase in the number of students above the benchmark for their year level.
- Utilizing the services of the Pedagogical Coach to build teacher capability in explicit teaching and consolidations through coaching.
